

Filter Thread Adapters

A variety of camera types and designs can be adapted to R. WOLF borescopes and fiberscopes. With some cameras, a simple mechanical filter thread adapter is sufficient.

This adapter simply is screwed into the filter thread of the camera objective lens. The adapter snaps on the R. WOLF eyepiece of borescopes and fiberscopes.

Filter thread-Ø	Filter thread mount	Order-Nr.
28 mm	M 28 x 0,75 mm	1.52091.28
37 mm	M 37 x 0,75 mm	1.52091.37
43 mm	M 43 x 0,75 mm	1.52091.43
49 mm	M 49 x 0,75 mm	1.52091.49
52 mm	M 52 x 0,75 mm	1.52091.52
55 mm	M 55 x 0,75 mm	1.52091.55
58 mm	M 58 x 0,75 mm	1.52091.58

For video cameras with interchangeable objective lenses we have a range of special borescope C-mount lenses with various focal lengths.
For single reflex cameras (35 mm) we can deliver tele lenses (f=105 mm) with various bajonett connectors matching most camera brands.

For these adapter types, see our accessories catalogue
